## Schils Calf Milk Replacer

### (Bucket feeding)

| Liters Milk | 125 gr/l | Liter water | 140 gr/l | Liter water |
|-------------|----------|-------------|----------|-------------|
| 1           | 125 gr   | 875 ml      | 140 gr   | 860 ml      |
| 2           | 250 gr   | 1,75 L      | 280 gr   | 1,70 L      |
| 4           | 500 gr   | 3,50 L      | 560 gr   | 3,45 L      |
| 6           | 750 gr   | 5,25 L      | 840 gr   | 5,20 L      |
| 8           | 1,00 kg  | 7,00 L      | 1,1 kg   | 6,90 L      |
| 10          | 1,25 kg  | 8,75 L      | 1,4 kg   | 8,60 L      |
| 20          | 2,50 kg  | 17,50 L     | 2,8 kg   | 17,80 L     |
| 30          | 3,75 kg  | 26,25 L     | 4,2 kg   | 25,80 L     |
| 40          | 5,00 kg  | 35,00 L     | 5,6 kg   | 34,40 L     |
| 50          | 6,25 kg  | 43,75 L     | 7,0 kg   | 43,00 L     |
| 60          | 7,50 kg  | 52,50 L     | 8,4 kg   | 51,60 L     |

#### In case of:

- Lack of iron and vitamins → complete the milk with **Ferro Fit**
- Digestion problems or diarrhea → add **AS-Vital** to the milk
- Ad-libitum system → acidifying the milk with **Euro-Cid**
- Stressful situations or changes → **Unilyt** for quick energy and a good electrolyte balance (to be used in water)
